agency

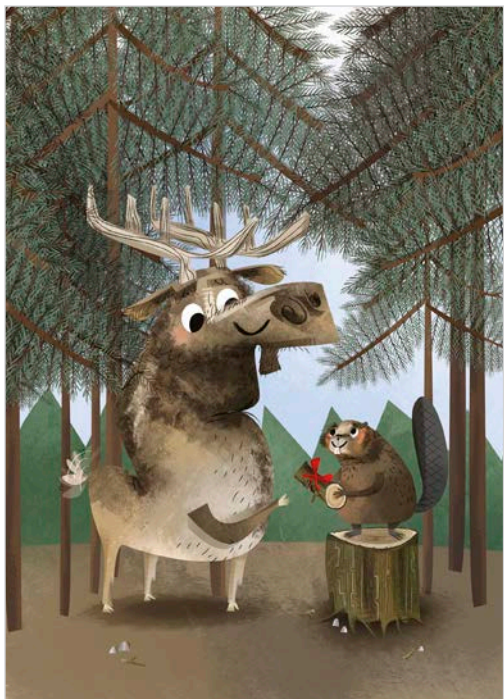

DISTINCT . DIVERSE

Mez is English Illustrator living in France - her home for the last 16 years. She graduated in Graphic Design from EPSAA in Paris, where she also studied illustration. But, her passion for illustration really began when illustrating juice and soup packaging designs in her first job as a junior Artistic Director. Encouraged by her, then, boss (and still super friend) she started her career as an illustrator and loves her work! She loves to write and sketch - imagining and designing characters - giving them a home in a story. She enjoys creating their playful worlds and magical universes used in/on all sorts of supports.
